drupa 2008

a successful exhibition for UNIGRAPHICA AG eine erfolgreiche Messe für UNIGRAPHICA AG

UNIGRAPHICA AG looks back on a winning participation throughout: «We achieved our aim to communicate UNIGRAPHICA AG as a solution provider for the graphics industry.» This is the conclusion of the owner Joseph Schweiger.

For the first time we presented our company as sole exhibitor under the theme «UNIGRAPHICA meets customer.» The very high number of international business people, acting in various industries especially security printing, were asking for information about our wide product range. This was displayed with presentations and films which created a large interest and demand at our visitors. The successful exhibition is particularly due to our excellent market position as solution provider, our experience in the graphics industry and last but not least our professional performance at the exhibition.

Eine durchgehend positive Bilanz zieht UNIGRAPHICA AG: «Es ist uns gelungen, den Besuchern UNIGRAPHICA AG als Gesamtlösungsanbieter in der grafischen Industrie näher zu bringen.» So lautet das Fazit von Inhaber Joseph Schweiger.

Zum ersten Mal haben wir uns als Alleinaussteller unter dem Moto «UNIGRAPHICA meets customer» präsentiert. Die überaus vielen und internationalen Besucher aus diversen Branchen, vor allem aus dem Sicherheitsbereich, informierten sich über unser breites Angebot. Dieses zeigten wir in Form von Präsentationen und Filmen, was bei den Besuchern grosses Interesse und entsprechende Nachfrage ausgelöst hat.

Die erfolgreiche Messe verdanken wir vor allem unserer exzellenten Marktstellung als Gesamtlösungsanbieter sowie unserer Erfahrung und unserem professionellen Auftritt an der drupa.
